OBJECTIVE

- I would love to be part of an organization that provides me with a platform to utilize my technical, communication, and leadership skills, enhance my knowledge for the organization's growth, and uphold strong core values. I aim to contribute with commitment, energy, and a continuous desire to become better.

SKILLS AND INTERESTS

- Programming:** Java, JavaScript, SQL
- Backend Development:** NodeJS, ExpressJS
- Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS
- Databases:** MongoDB, MySQL
- API & Integration:** REST API Integration, JWT Authentication, Third-party API Integration
- Development Tools:** Git, GitHub, Postman (API Testing), VS Code
- Soft Skills:** Communication, Presentation, Teamwork, Leadership

EDUCATION

- Buddha Institute of Technology** Gorakhpur, India
Bachelor of Technology – Computer Science and Engineering (CGPA: 8.0) Nov 2022 – Jun 2026

EXPERIENCE

- DigiQuest Consultancy Services Pvt. Ltd** Gorakhpur, Uttar Pradesh
Software Developer Intern (Onsite) Mar 2025 – Sep 2025
 - Frontend Development (React):** Developed reusable React components and implemented responsive UI designs, ensuring seamless user experience across devices.
 - API Integration:** Integrated RESTful APIs with frontend components for efficient data fetching, validation, and real-time updates in the application.
 - Backend & API Testing:** Tested and validated APIs using Postman, and performed debugging to ensure data accuracy and system reliability.
 - SDLC & Collaboration:** Participated in requirement discussions, collaborated with team members, and contributed to development, testing, and deployment phases.

PROJECTS

- Tech-Path-Finder:** Developed a scalable MERN stack application with role-based authentication and secure REST APIs. Enabled students to explore career-based technologies while ensuring protected routing, efficient CRUD operations, and robust backend validation. [Link](#)
- HealthMate Go – Healthcare Management Platform:** Created a healthcare management system enabling online consultations and secure digital record management. Implemented chatbot support and analytics dashboards while applying API validation and backend debugging to enhance system reliability. [Link](#)
- Blogging Web Application:** Built a multi-role blogging platform with Admin, Author, and User access control. Designed and tested CRUD APIs with authentication and input validation to ensure secure and structured content publishing. [Link](#)

CERTIFICATIONS

- Web Development in Django — GeeksforGeeks
- MySQL Certification — Simplilearn (SQL database management and querying)
- Excel Certification (Beginner to Advanced) — Simplilearn

ACHIEVEMENTS

- Solved 300+ problems on LeetCode and GeeksforGeeks, demonstrating strong data structures, algorithms, and problem-solving skills.
- Honours Award recipient for maintaining 75%+ aggregate across 1st–3rd year of B.Tech with no backlogs.

LEADERSHIP & EXTRACURRICULARS

- Team Lead – College Technical Projects and Events** Gorakhpur, India
Coordinated registrations and event logistics for technical, cultural, and sports activities, enabling smooth execution and effective collaboration among participants and organizers.
- Participant – College Technical Events** Gorakhpur, India
Participated in multiple college-level technical events, collaborating with peers on project presentations and problem-solving activities.
